

BUSINESS CARDS

B.I.G are a leading provider of corporate print personalisation systems.

Since 1996 we have supplied over 50 million business cards to clients who demand not only innovative ideas and a high level of service, but also solutions that are quick, economical and easy to use. Today, our business card systems deliver the finest products at the touch of a button.

Discover the business benefits of great presentation

If you're in business, you need business cards. And the way your business card looks reflects the way people see you and your organisation. They are often the first thing a prospective client sees from your company at a meeting or presentation.

And now with many people having a direct dial phone number, owning a mobile phone, communicating via e-mail or the worldwide web, a business card needs to convey so much more information than just an address, phone and fax number.

B.I.G understand better than anyone the importance of reflecting a corporate image, so take advantage of our knowledge and expertise.

B.I.G make it simple to ensure that you always have the cards you need. We'll print as many - or as few - sets as you require (even just one) and deliver them where and when you need - even to your stand at an exhibition!

And with our reminder system and convenient card wallets, you should never find yourself without a business card again.

BIG E@SY - ONLINE ORDERING

The quick and easy way to order

The B.I.G E@sy system is a unique e-solution that will revolutionise your organisation's business card ordering. When used in conjunction with our Call-off or Admin systems, it is the ultimate way to save time and money on your business cards.

Combining the best of the Internet with user-friendly technology, the E@sy system enables you to order business cards online from your computer, and delivers real business benefits in terms of time and cost savings. You simply log into your customised corporate template, add personalisation details as required, then proof and approve online in seconds... it couldn't be easier!

The B.I.G E@sy On-line Ordering and Administration System is exactly what it says it is - E@sy.

- Online ordering: faster, cost-effective
- On-screen proof approval eliminates paperwork, hassle and errors
- Online order tracking from receipt to delivery

- Re - ordering facility in less than 10 seconds
- User-friendly, step-by-step procedure
- Central purchasing control, decentralised order administration
- Delivery direct to end users: perfect for companies with multiple locations

In summary ... no more proofing errors, no more time-wasting, no more hassle ... Sound good?

And of course the E@sy System means that we're open for business whenever you are.
